**Lantor 6H** (for outdoor use): 1.5m x 22 m roll Fargro code: To order.

## REIMANN CAPILLARY MATTING

Reiman capillary mats are long life products.

They comprise:

- \* A bonded impermeable plastic base.
- \* A quality capillary matting.
- \* A woven ground cover top.

The water moves through the capillary matting to the pot through needle threaded capillary connections to the ground cover. This ensures that the top surface remains dry, reducing disease incidence, whilst the plant has plenty of water available in the root area.

### Advantages:

- \* Can be cut to various sizes.
- \* Very easy to clean and store if required.
- \* Uniform irrigation.
- \* Ideal microclimate.

Longlasting and very robust.

Black with squares.

Can be used on bench and floor.

50 meter long rolls.

### **Vivaplus 3:**

For nursery stock. Weight 400 g per square metre. Available widths (cm) 100, 120, 150, 165, 180, 200, 220.
