

John Innes Loam Based Composts

John Innes Seed

Traditional loam-based formulation with limestone and sand.

Recommended Uses: Seed sowing, rooting cuttings.

Advice: Not suitable for lime-hating (ericaceous) plants. Useful Tip: Should not be stored from one season to another as nutrient content may become unbalanced.

Sizes: 25 litre

Fargo Code: JISEE

John Innes No.3.

Traditional loam-based formulation with limestone and grit sand. Recommended Uses: Final re-potting of mature vegetables, foliage plants, trees and shrubs.

Feeding Recommendations: After 4-8 weeks or earlier if container becomes well filled with roots.

Advice: Not suitable for lime-hating (ericaceous) plants.

Useful Tip: Should not be stored from one season to another as nutrient content may become unbalanced.

Sizes: 25 litre

Fargo Code: JIN03

John Innes No.1.

Traditional loam-based formulation with limestone and grit sand. Recommended Uses: Pricking out young seedlings or rooted cuttings and moving up to larger pots.

Feeding Recommendations: After 4-8 weeks or earlier if container becomes well filled with roots.

Advice: Not suitable for lime-hating (ericaceous) plants.

Useful Tip: Should not be stored from one season to another as nutrient content may become unbalanced.

Pack Size: 25 ltr

Fargo Code: JIN01

John Innes Ericaceous

Traditional loam-based formulation with grit sand.

Recommended Uses: For lime-hating plants such as azaleas, rhododendrons, camellias and heathers.

Feeding Recommendations: Feed after 4-8 weeks with J Arthur Bower's Ericaceous liquid plant food or J Arthur Bower's Azalea, Rhododendron and Heather plant food.

Advice: Only suitable for lime-hating (ericaceous) plants.

Size: 25 litre

Fargo Code: To order

John Innes No.2.

Traditional loam-based formulation with limestone and grit sand. Recommended Uses: Re-potting most established houseplants or vegetable plants into medium sized pots.

Feeding Recommendations: After 4-8 weeks or earlier if container becomes well filled with roots.

Advice: Not suitable for lime-hating (ericaceous) plants.

Useful Tip: Should not be stored from one season to another as nutrient content may become unbalanced.

Sizes: 25 litre

Fargo Code: JIPOT
