

Knapsack & Hand Sprayers, Accessories

COOPER PEGLER

HAND OPERATED KNAPSACK SPRAYERS

COOPER PEGLER 2000 SERIES

The CP 2000 series has set new standards for comfort and safety. A unique ergonomic design results in a comfortable, safe and capable piston pump knapsack sprayer.

Pressure regulator. Over pressure goes back into the tank.

Left or right hand operation.

High resistance GRP lance adaptable for all types of nozzles.

Double filtration system to clean impurities before nozzle outlet. Few wearing parts.

Lightweight contoured tank with adjustable shoulder straps incorporating adjustable foam pads and a waist belt with a snap buckle to prevent lateral movement.

An angled sided tank opening allows complete emptying and a spring-loaded lightweight trigger valve maintains a steady pressure.

There are no openings below the liquid level which considerably reduces the possibility of contamination for the user.

Supplied with:

Anvil (green) and hollow cone (yellow) nozzle. Graduated 250 ml measuring Jug. Fluid control valve.

Pressures settings:

3 bar or with fluid control valve 1 bar (for herbicides).

Fargro Code **SPRC15** CP 15 (15 litres).

Fargro Code **SPRC03** CP3 (20 litres).

CLASSIC SERIES:

The design incorporates a unique diaphragm pump very resistant to impurities in water.

There is a pressure regulator for various spraying tasks with settings for 1 and 3 bar. Over pressure goes back into the tank. Left or right hand operation.

High resistance GRP lance adaptable for all types of nozzles.

Double filtration system to clean impurities before nozzle outlet. Few wearing parts. Working parts are within the tank to prevent damage.

Supplied with:

Anvil (green) and hollow cone (yellow) nozzle. Graduated 250 ml measuring jug.

Pressure settings:

1 bar (15psi) and 3 bar (45psi).

Fargro Code **SPRCL15** CP15 Classic (15 litres).

Fargro Code **SPRCL03** CP3 Classic (20 litres).

PUMP UP SPRAYERS

MINIPRO 1.5L HAND HELD SPRAYER:

A 1.5 litre compression sprayer.
 Trigger operated.
 Adjustable nozzle for different spray jobs.
 Fargro Code **SPRM15**.

MAXIPRO SPRAYERS:

Compression sprayer.
 Wide opening for easy filling, emptying and cleaning. Wide base for stability. Safety valve releases at 3 bar – ideal for insecticides and fungicides.
 High resistance GRP lance adaptable for all spray nozzles incorporates filter. Ergonomic design with easy fit shoulder strap. Lance transport locking system. Transparent tank with moulded indicator.
 Supplied complete with graduated 250 ml measuring jug, green floodjet nozzle and yellow hollow cone nozzle.

Fargro Code **SPRM5** Maxipro 5 litre.

Fargro Code **SPRM8** Maxipro 8 litre.

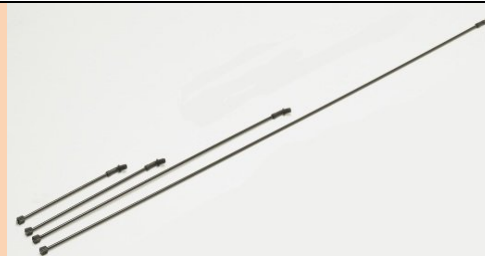

ACCESSORIES

LANCES:

Lances with elbow (Lances supplied on the 2000 series and Classic sprayers are 0.5 m long and 0.37m on the Maxipro).

Fargro code	Description	CP Part number
SPRL1M	1 metre	730441
SPRL2M	2 metre	730442.
To order	0.5m	72032900
To order	0.37m	72033100

Telescopic lance

Adjustable length of lance.

Fargro code	Description	Cooper Pegler Part
SPRTL	Adjustable from 1.0 – 2 m	755742
To order	Adjustable from 0.5-1 m	755755
To order	Adjustable from 0.75-1-5m	755741

Lance Extension:

Fargro code	Description	Cooper Pegler Part
To order	0.5m	730439
To order	1m	730440

SPRAY SHIELD:

Spray shield 37 cm for plastic lance (15 inch).

<u>Fargro Code</u>	<u>Description</u>	<u>Cooper Pegler part</u>
SPRLSJ	38 cm spray shield for plastic lance	741647

Double swivel nozzle:

Fargro code to order. Cooper Pegler part 755823

Constant Pressure Valve:

Releases spray fluid only when the pressure is above 1 bar and only at this pressure. As supplied with the 2000 series sprayer. Illustrated on end of the lance before anvil nozzle. Supplied without lance or nozzle.

Fargro Code to order. Cooper Pegler part 755820

SPRAY BOOMS:

Composite, with flat fan nozzles, nozzle filters. Nozzle spacing 50cm. Fits on the end of a standard lance.

<u>Fargro code</u>	<u>Description</u>	<u>C P part number</u>
SPRNB2	Two nozzle boom	755604.
SPRNB3	Three nozzle boom	755603.
SPRNB4	Four nozzle boom	755605.
