

GRODAN® stonewool products can be manufactured in many forms, e.g. slabs, blocks, matts, rolls, cells, granulates. This makes it possibly the most versatile growing medium available.

For 25 years Grodania has built up considerable experience in working with GRODAN® substrates. This experience is constantly updated through the latest knowledge achieved through our interactive advisory team.

GRODAN® propagation blocks are used for seed and cutting propagation and for tissue cuttings.

Propagation

Fargro Code	Product	Dimensions L x W x H	Specification	Quantity

GROWING SLABS

TALENT - Single Year (A1 B1 C1) Two Year (A2 B2 C2)

Vertical fibre - free-draining

Talent slabs are our general stock slab - a standard for the industry.

Fargro Code	Product	Dimensions LxWxH	Packing Qty		
GDTPP	TALENT 1575 A1W	900 X 150 X 75mm	Wrapped		12/pack
GDTTK	TALENT 2075 A1W	900 x 200 x 75mm	Wrapped		12/pack
GDTOE	TALENT 2575 A1W	900 x 250 x 75mm	Wrapped		12/pack
GDTOF	TALENT 1575 B1W	1000 x 150 x 75mm	Wrapped		12/pack
To order	TALENT 2075 B1W	1000 x 200 x 75mm	Wrapped		12/pack
GDTTM	TALENT 2075 B2W	1000 x 200 x 75mm	Wrapped		12/pack

GD TTL	TALENT 2575 A2W	900 x 250 x 75mm	Wrapped		8/pack
GD TTQ	TALENT 1575 C2W	1200 x 150 x 75mm	Wrapped		12/pack
To order	TALENT 2075 C2W	1200 x 200 x 75mm	Wrapped		12/pack

EXPERT - One Year Life

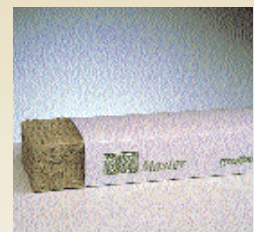

GDEXP	EXPERT + 1-6011330 x 150 x 75mm	Wrapped	singles
GDEXR	EXPERT + 1-6041000 x 150 x 75mm	Wrapped	singles

MASTER - One Year Life

Dual density - Horizontal fibre - increased water holding in the top of the slab.

The Master has established a reputation among growers for providing the maximum yield and quality potential and this has been confirmed in commercial practice. The Master is now widely used on hundreds of hectares of glasshouse crops such as tomato, cucumber, pepper and aubergine.

Fargro Code	Product	Dimensions	Packing Qty		
To order	MASTER 1575 A1W	900 x 150 x 75mm	Wrapped		12/pack

To order	MASTER 2075 B1W	1000 x 200 x 75mm	Wrapped		12/pack
To order	MASTER 1575 C1W	1200 x 150 x 75mm	Wrapped		12/pack
To order	MASTER 2075 C1W	1200 x 200 x 75mm	Wrapped		12/pack

RECYCLING - GROWING SLABS

Please contact Fargro to discuss recycling options.

GRODAN® Single Block System

- the perfect "tool" to optimise your propagation.
- comes in prefilled trays and is easy to use.
- has excellent water holding capacity and pore space making it easy to establish the right water and air ratio for your specific crop.
- allows you to apply liquid fertiliser at the right time and ratio.
- is clean, reducing pest and disease management needs.
- makes transplanting simple with plant and media in one unit.
- provides you with the technical service and support that has backed our products for more than two decades.

GRODAN® stonewool products developed to give your plants the OPTIMUM start.

SBS (Single Block System) 18 trays/box

Fargro Code	Product	Dimensions	Hole size (O/depth)	
		L x W x H		
GDSK	SBS 25/150	25 x 25 x 40mm	3/10	2700/Box
GSDS	SBS 25/150	25 x 25 x 40mm	6/16	2700/Box
GDSJ	SB 36/77	36 x 36 x 40mm	3/10	1386/Box
GDSF	SB 36/77	36 x 36 x 40mm	6/15	1386/Box
GDSG	SB 36/77	36 x 36 x 40mm	18/20	1386/Box

Granulates

GRODAN® granulates are used to alter the air or water holding character of peat based composts or can be used as a complete growing media. The water repellent (BU) increases aeration in pest composts and the water absorbent (GU) increases the water retention.

Fargro Code		Specifications	Loose volume	Weight
GDWBL	M- BU-10	Water repellent, fine grade	300 L	20 kg
GDWB	M-BU-20	Water repellent, medium grade	450 L	20 kg
To order	M-GU-10	Water absorbent, fine grade	300 L	20 kg
GDSH	M-GU-20	Water absorbent, medium grade	450 L	20 kg

Ideal for Aquatic Plants, Herbs and Cress

GRODAN® WATER CONTENT METER

The new WCM-H comes with a durable casing. It has been equipped with extra strong, hard-wearing cables, ensuring high reliability. The high battery capacity means that the WCM-H can be used for long periods between recharging.

Exceptionally accurate measurement of water content (0-100%) and EC (0-8 mS/cm)

Automatic calculation of the average and the deviation of water content, EC and temperature of each set of measurements.

Accurate measurements in all varieties of **GRODAN®** slabs, easily adaptable via the menu.

Compact and easy-to-use design.

Considerable time saving in the collection and processing of data.

Tracing possible causes for differences between slabs or zones.

Tracing temperature differences in water/spring by measuring slab temperature.

High capacity, long life battery.

Safety first - after use, the sensor pin can be inserted into the meter.
