

Plant Support - ties, tapes, hoops, clips, pegs, rings, tree guards

MAX TAPENER TYING MACHINE AND ACCESSORIES

MAX

The HT-B Machine MAX hand tying machine is ideal for tying climbers, shrubs, trees and any other plants that require support. The machine applies a plastic tape around the plant and support to which it is tied the tape is applied stapled and cut simultaneously creating a loop.

Ideal for light tying of soft fruits, vines, fruit trees and large shrubs.

FARGRO CODE	DESCRIPTION	PACK
TUBE3	3mm Green	150m/bag
TUBE4	4mm Black	320m/reel

SECURING CLIPS

Securing clips designed to secure climbers, shrubs and trees. Young trees to straining wires in growing beds or garden centre retail areas. By bending the clip around the plant or cane and clipping the clip onto the straining wire, this secures and protects the plant from being blown or knocked over.

Made from a black or green, weather resistant, durable plastic the SECURING CLIPS are totally re-usable. They come in different sizes to fit different plants, trees and wire gauges.

FARGRO CODE	PLANT LENGTH WIRE	PACK
To order	No.52 Rose 10cm 2mm	1000
CLIP53	No.53 Fruit 12cm 3mm	1000
To order	No.54 Tree 12cm 4mm	1000
To order	No.65 Tree 12cm 5mm	1000
To order	No.55 Tree 12cm 4mm	1000
To order	No.60 Tree 22cm 3 & 4 mm	500

SHRUB TIES

SINGLE ADJUSTABLE TIES

A tie for light tying of climbers, shrubs and small trees. Made from green polyethylene material it is very strong and long lasting in all weather.

FARGRO CODE	REF	SIZE	PACK

To order	TP175	7"(175mm) Long	1000
To order	TP225	9"(225mm) Long	1000

TREE TIES - SUPER SOFT

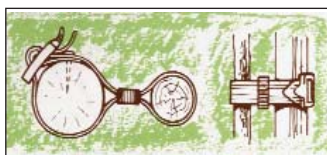

The 'SUPER SOFT' TREE TIES are made from very soft rubber plastic, with moulded grooves to prevent damage to the bark of the tree. The 'SUPER SOFT' TREE TIES are much more easily applied than conventional buckle type ties, especially in cold weather, as they are much more pliable and can be put on whilst wearing gloves. The tie itself acts as a cushion between the tree and the support stake, thus obviating the use of a separate spacer. The 'SUPERSOFT' TREE TIES are weather resistant and have been treated with U.V. stabilisers, so they do not stiffen or split with age. Because of the elasticity of the material used the tree will not be disfigured, as the tie will stretch as the tree grows. Lifespan of 'SUPER SOFT' is 10-12 years.

FARGRO CODE	REF	LENGTH	WIDTH	THICKNESS	BOX QTY
To order	TP35	35cm	16mm	4mm	200
To order	TP40	40cm	22mm	6mm	200
