ALWAYS READ THE LABEL BEFORE USE

COOLGLASS

- Needs no special preparation, simply mix with cold water and spray or brush on.
- Reduces light transmission.
- Lasts the whole summer.
- Is easily removed with a dry cloth.
- Safe to humans and animals, when used as directed.
- Can be stored in its diluted state without any risk of deterioration.

INFORMATION

COOLGLASS is a white shading material for glasshouses and many other situations, such as hospitals, factories, offices and schools. where reduction of sunlight is required.

It mixes readily with cold water and can be applied by a sprayer or by painting with a brush.

Once applied COOLGLASS remains effective throughout the summer months. If more light is required and at the end of the season it can easily be removed with a dry duster.

5 litres treats 1,000 m².

DIRECTIONS FOR USE

Shake container before use.

Add 1 litre of COOLGLASS to 16 litres of water whilst stirring thoroughly. This covers 200 square metres of glass when applied evenly with a sprayer.

Larger areas can be covered when applied with a brush.

Apply in dry weather conditions when rain, snow and frost are not expected. Snow can remove COOLGLASS.

It is preferable to apply COOLGLASS to clean glass as this allows easy removal at a later date. To remove COOLGLASS wipe with a dry duster. Ensure that the glass is dry before wiping.

Diluted COOLGLASS can be stored in a sealed container for later use. Stir thoroughly before use.

COOLGLASS is less easily removed when it has been applied to dirty or greasy glass.

Do not apply to plastic or polythene.

When used as directed COOLGLASS is safe to humans and animals.

Conditions of Supply

All goods supplied by us are of high grade and we believe them to be suitable, but as we cannot exercise control over mixing and use, all conditions and warranties, statutory or otherwise, as to the quality or fitness for any purpose of our goods are excluded, and no responsibility will be accepted by us for any damage or injury whatsoever arising from their storage, handling, application or use.
